Newsletter September 2024

Welcome back to school for the 2024-2025 school year! We are excited to start this year. You make an incredible difference in the education of your student. Thank you for following up with your child on any homework needing to be completed, helping ensure your child reads each day, and helping your child with math facts. We are excited about how well CES students do academically and recognize the important partnership with you in helping make this happen.

As we get going with another year, please consider being involved with our PTO. You will receive notification of our meetings. Our first meeting occurs September 4th at 4:30 in the CES library. The PTO helps to enhance programs being offered at CES and plans extra events to help provide additional experiences to our students. We are continuing to work to fundraise for a CES playground enhancement. We are getting closer and closer to our goal but still have a way to go. We appreciate your help in this regard so all of our students can benefit from this.

Please be sure you have filled out a free and reduced lunch form. These are now digital and can be found on the district website. Please keep an eye on your child's lunch balance throughout the year to ensure you are able to keep funds in the account.

Please feel free to reach out to your child's teacher if you have questions or concerns as we get going with this year. We are excited about the opportunities that lie ahead.

Sincerely,

Kenneth Dietz
Cokeville K-12 Principal

Upcoming Events

9/6 School Day (FRIDAY)

9/10 Vision &
Hearing Screening

9/17 School Pictures

9/27 School Day (FRIDAY)

11:30 Release for
Homecoming

10/14-18 6th Yellowstone

10/24 AR points due

10/29 Picture retakes

Note from the Nurse

Hello parents! We are excited about our new Over-the-Counter medication policy this year. Our LCSD2 Nursing Team worked hard last year in developing and implementing this policy to provide better care to our students. We now have Over-the-Counter medication permission forms at CES and CHS for parents to complete if they desire. Only medications selected on the form will be administered by a nurse or secretary after a confirmation phone call to parents. These forms can be updated at any time. In the future Over-the-Counter medication authorization will be included in the online registration process.

Registration Reminder

It's not too late to look at your student's registration and your IC parent account. These need to be updated with Emergency Contact information, lunch accounts, and parent information for every student in your household. Free and Reduced applications must be completed every year by households who choose to do so.
